

CURIE ELEMENTARY SCHOOL PTA

2020 – 2021 BUSINESS SPONSORSHIP OPPORTUNITIES

Businesses Supporting Education

BE THE DIFFERENCE

Please partner with Marie Curie Elementary as a Community Business Sponsor.

100% of your tax-deductible donation will go to Curie Elementary and our PTA supported programs.

Goal: Over \$80,000 needed to maintain our current level of educational excellence in our community.

Excellent Exposure: Our Curie Community includes over **400 families and 600+ students.**

New This Year!

If you have your own banner, we will prominently feature it on Governor Drive with your Diamond Sponsorship.

Please see details
on the back!

Why Support Curie Elementary?

We All Benefit/Money Well Spent

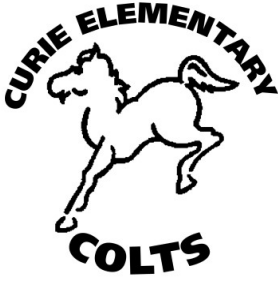

The entire University City community benefits from a solid school system, even those of us with no children enrolled. The quality of our schools helps sustain the demand for housing in our community and maintains property values. A community-wide commitment to Curie Elementary ensures that our school, and our community, remain strong.

Business Values/Community Strength

University City is not only a great place to live; it is a great place to locate your business. Businesses thrive here, and it is not uncommon for business owners and employees to make University City their home. Effective schools like Curie Elementary ensure a vital community, which sustains a strong business environment.

Working Together/Ensuring the Future

Many of us live and work near Curie Elementary because we value the education our children receive. Curie Elementary is one of the top ranked elementary schools in the State of California and is consistently ranked in the top ten within the San Diego Unified School District. While the district provides the basics of education, **our PTA fills in critical gaps by providing expert consultants to lead our Technology, Music, Art, and Physical Education programs that are no longer District funded.** Strong education is the foundation to success in life, and to **the continuing success of University City as a neighborhood.**
